

Management Seminar

Project Management in the Area of Conflict between Theory and Practice

Project Success by Professionalism

Seminar orientation:

Industries of plant engineering & construction, power plants, manufacturing for industrial machinery but also civil works.

In many Companies unsatisfactory Project Results are only discovered at the time of Project Completion.

These include: substantial time delays, cost overruns, penalties, project team "burnt out", and most importantly:, dissatisfied customers.

Understand why you should not leave Project Management to the whims and/or personalities of individuals.

Develop efficient and effective Project Management.

Use this opportunity to learn from an Expert the guidance of professional Project Management in order to achieve tremendous cost savings!
